How to Check Ayushman Card Eligibility

Tuesday, 18 August 2026 - Ayushman Process

POSTED

POST TEXT

Not sure if your treatment is covered under Ayushman Bharat?

If you have a PM-JAY or MJPIAY card, visit Hope Hospital's insurance desk with your card and Aadhaar. Our team checks your eligibility, package coverage and pre-authorization requirements on the spot.

Covered procedures include knee and hip replacement, cardiac surgery, kidney transplant, dialysis, cancer surgery and more. Cashless admission is available for eligible cardholders at our NABH-accredited hospital in Nagpur.

Know your coverage before you plan treatment.

Location: Teka Naka, Kamptee Road, Nagpur.

Dialysis Access - AV Fistula Care

Wednesday, 19 August 2026 - Nephrology Focus

TO POST**POST TEXT**

For patients needing long-term dialysis, a well-functioning AV fistula is essential.

Warning signs that need evaluation:

Swelling, redness or pain at the fistula site

Weak flow or no thrill (vibration)

Bleeding from the access point

Difficulty in needle placement

Hope Hospital's nephrology and vascular surgery team provides fistula creation, maintenance care and emergency revision when needed. Our on-site NephroPlus dialysis unit supports patients with complete kidney care.

Location: Tekka Naka, Kamptee Road, Nagpur.

Chest Pain - When to Reach Emergency

Thursday, 20 August 2026 - Cardiac Awareness

TO POST

POST TEXT

Chest discomfort should never be ignored.

Warning signs that need emergency care:

Chest pain, pressure or squeezing sensation

Pain spreading to left arm, neck or jaw

Shortness of breath with or without chest pain

Cold sweat, nausea or lightheadedness

If you or someone near you shows these signs, reach emergency care immediately. Hope Hospital, Nagpur provides 24/7 cardiac evaluation, ICU support and emergency cardiac care.

Every minute counts in a heart attack.

Location: Tekka Naka, Kamptee Road, Nagpur.

Child Fever - When Parents Should Act

Friday, 21 August 2026 - Pediatric Awareness

TO POST

POST TEXT

Fever in children can be worrying. Most fevers are viral and resolve at home — but some signs need medical attention.

See a doctor if the child has:

- Fever above 103°F (39.4°C)
- Fever lasting more than 3 days
- Difficulty breathing, rapid breathing or chest pain
- Seizure or extreme drowsiness
- Stiff neck or severe headache
- Refusal to drink fluids or signs of dehydration

Hope Hospital, Nagpur provides pediatric consultation, emergency care and inpatient treatment when children need medical attention.

Location: Teka Naka, Kamptee Road, Nagpur.

Cataract Warning Signs for Seniors

Saturday, 22 August 2026 - Senior Eye Health

TO POST

POST TEXT

Vision changes in seniors should not be dismissed as "just aging."

Warning signs of cataract:

Cloudy or blurred vision

Difficulty seeing at night

Sensitivity to light and glare

Seeing halos around lights

Fading or yellowing of colors

Frequent prescription changes

Cataract surgery is a safe, effective procedure that can restore clear vision. Hope Hospital, Nagpur provides ophthalmology evaluation and surgical care when vision problems affect daily life.

Don't let cataracts limit independence.

Location: Teka Naka, Kamptee Road, Nagpur.

Kidney Stone Prevention

Sunday, 23 August 2026 - Preventive Health

TO POST

POST TEXT

Kidney stones can be extremely painful — but simple habits can reduce recurrence.

Drink enough water: 8-10 glasses daily

Limit salt and processed foods

Eat calcium-rich foods but avoid excess supplements

Stay active: regular exercise helps

Don't ignore burning urination or blood in urine

If you've had kidney stones before, regular follow-up with a nephrologist helps prevent recurrence. Hope Hospital, Nagpur provides stone treatment (RIRS, PCNL, ESWL), evaluation and preventive guidance.

Kidney stones often run in families — prevention matters.

Location: Teka Naka, Kamptee Road, Nagpur.

Dengue Warning Signs

Monday, 24 August 2026 - Monsoon Seasonal

TO POST

POST TEXT

As monsoon continues, dengue cases remain a concern in Nagpur.

See a doctor immediately if fever is accompanied by:

Severe abdominal pain or persistent vomiting

Bleeding from gums or nose, or easy bruising

Difficulty breathing or fatigue

Cold, clammy skin or restlessness

Warning signs usually appear after 3-7 days of fever — this is when urgent care is critical.

Hope Hospital provides 24/7 emergency care, platelet monitoring, ICU support and hospital admission when dengue warning signs appear.

Don't wait for complications — seek care early.

Location: Tekka Naka, Kamptee Road, Nagpur.
