

Hope Hospital — Medical Sign-off (3 items, one pass)

For: Dr. B.K. Murali (CMD) — with Dr. Milind Dekate for the kidney-care items **Prepared:** 19 June 2026 **Time needed:** about 15 minutes. **Nothing goes live on the website until you sign.**

Three pieces of website work are written and waiting only on your medical review. They're ordered below by impact. Please confirm the facts, edit any wording in the margin, and tick the boxes on the final page.

★ **Answer this one first — it affects two pages**

Does Hope Hospital / NephroPlus provide Peritoneal Dialysis (PD / CAPD) on-site, including home / automated PD training?

- ☐ **Yes — we offer PD / CAPD** (the kidney-care wording below stays as written)
- ☐ **No — hemodialysis only** (we will remove / reword every PD mention)

PART 1 — Kidney-care content (highest impact: our nephrology growth plan)

Adds patient-education depth to the Nephrology page to help it rank for "nephrologist in Nagpur" (today page 1, positions ~9–11), and unlocks a new "Dialysis Cost in Nagpur" page. No new pricing claims except where asked below.

1A. The 5 Stages of Chronic Kidney Disease (graded by eGFR)

Stage	eGFR	Meaning
Stage 1	90+	Normal function but signs of damage; control diabetes / BP
Stage 2	60–89	Mild loss; usually symptom-free
Stage 3a / 3b	45–59 / 30–44	Moderate loss; most patients first referred to a nephrologist here
Stage 4	15–29	Severe loss; begin preparing for dialysis access or transplant
Stage 5	below 15	Kidney failure; dialysis or transplant needed

🔍 **Confirm:** the eGFR ranges, and "most referrals begin at Stage 3."

1B. Hemodialysis vs Peritoneal Dialysis

- **Hemodialysis (HD):** blood filtered by machine, ~3 sessions/week, ~4 hrs each, at our NephroPlus unit.
- **Peritoneal Dialysis (PD / CAPD):** uses the abdomen's lining; can be done at home, including overnight (automated PD).

🔍 **Confirm:** gated on the ★ question above. If HD-only, this sub-section is cut.

1C. Dialysis or Kidney Transplant — patient options

Dialysis starts immediately, no surgery / donor needed. Transplant offers a fuller lifestyle and freedom from regular sessions, but means major surgery + lifelong immunosuppressant medication. Choice depends on age, health, donor availability, preference.

🔍 **Confirm:** accurate, balanced summary.

1D. Two new FAQs

- **"What is a normal creatinine and eGFR level?"** — normal eGFR is 90+; below 60 for 3+ months = CKD; below 15 = kidney failure.

- **"Can chronic kidney disease be reversed?"** — mostly not reversible, but early-stage progression can be slowed / stabilised; acute kidney injury is often reversible.

🔗 **Confirm:** both answers, especially "below 60 for 3 months = CKD" and "AKI often reversible."

1E. New "Dialysis Cost in Nagpur" page — 4 facts it's waiting on

Draft lead (the line AI assistants quote): "Dialysis is covered cashless under Ayushman Bharat (PM-JAY) and MJPIAY for eligible cardholders, with no waiting period for chronic kidney disease. At Hope Hospital's on-campus NephroPlus unit, hemodialysis is provided at standardized rates."

1. **Cash / private dialysis cost** at Hope (Ayushman rate ₹1,200–2,000/session is already published; we need the cash figure):

₹_____/session · ₹_____/month 2. **"No waiting period for CKD/ESRD under PMJAY"** — still accurate? ☐ Yes ☐ No 3. **PD /**

CAPD — see the ★ question. 4. **Byline:** Dr. Milind Dekate (already our named nephrology reviewer) — OK to use here too? ☐ Yes

☐ No

PART 2 — Disease-page medical reviewers (lifts 8 pages' AI-credibility)

Each disease page should show a named, credentialed reviewer instead of a generic "Team." This is the single biggest credibility (EEAT) signal for these pages. **Two are currently a specialty mismatch** (an orthopaedic surgeon credited on diabetes & hypertension).

Disease page	Current byline	Proposed named reviewer	OK?
kidney-stones	Nephrology Team	Dr. Jayant Nikose (Urologist) — or Dr. Milind Dekate	☐
back-pain	Orthopedic Team	Dr. B.K. Murali (MS Ortho)	☐
arthritis	Dr. B.K. Murali	Dr. B.K. Murali — keep	☐
diabetes	Dr. B.K. Murali ⚠️	Dr. Afzal Sheikh (General Physician)	☐
hypertension	Dr. B.K. Murali ⚠️	Dr. Akshay Dalal (Cardiologist)	☐
heart-attack	Cardiology Team	Dr. Akshay Dalal (Cardiologist)	☐
gallbladder-stones	Gastroenterology Team	Dr. Nikhil Khobragade (Gastroenterologist)	☐
stroke	Neurosurgery Team	Dr. Ritesh Nawkhare (Neurosurgeon) — or a neurologist	☐

Note: assign only a doctor who genuinely vetted the content and is willing to be named publicly. Wording/credit change only — no medical claims altered.

PART 3 — Your own profile: 3 new FAQs + one fix

Your profile (/doctors/dr-bk-murali) was upgraded today for AI search. These FAQs restate facts already on the page — please confirm.

#	Question	Proposed answer	OK?
1	Is Dr. B.K. Murali a good choice for knee replacement in Nagpur?	Yes — M.S. (Ortho), 19+ years, 5,000+ surgeries, specializing in total knee replacement at NABH-accredited Hope Hospital.	☐
2	How many surgeries has Dr. B.K. Murali performed?	5,000+ orthopedic surgeries over a 19+ year career (knee/hip replacement, arthroscopy, spine).	☐
3	Does Dr. B.K. Murali perform spine surgery?	Yes — disc replacement, spinal fusion, laminectomy, plus sports medicine and trauma.	☐

 **One fix — your OPD timing conflicts on the page:**

- Banner says: **8 AM – 11 AM, Mon–Sat**
- FAQ / table say: **8 AM – 11 AM, daily**

Correct timing is: _____

SIGN-OFF

- ☐ **Part 1 — Kidney-care content** approved (with any margin edits) — Dr. _____ Date _____
- ☐ **Part 2 — Disease-page reviewers** confirmed — Dr. _____ Date _____
- ☐ **Part 3 — Profile FAQs + OPD timing** approved — Dr. _____ Date _____
- ☐ **Hold — let's discuss:** _____
