

Summary of all website work completed and published on **20 May 2026**. Every change below is committed and live on the production site.

★ 1. Patient Reviews

- ✓ **Fixed the broken review QR code.** The review card relied on Google's old chart API (now shut down) and showed a blank box. Replaced it with a permanent local QR image so patients can scan and leave a Google review reliably.
- ✓ **Created print-ready review assets.** Review card (PDF + image) and a high-resolution QR poster for reception/counters.
- ✓ **Added "Review us on Google" routing.** Homepage review buttons now route through hopehospital.com/review (one changeable link), and the displayed count updated to 390+ with accurate schema (399 reviews, 3.9★).

2. SEO Improvements

based on Google Search Console data

- ✓ **Optimized the Ayushman Bharat surgery-list page.** Added "Package List" + "MJPJAY" to the title/meta — it ranks for those exact searches but the words were missing. Trimmed the meta to display fully.
- ✓ **Refreshed the Knee Replacement guide to 2026.** The page was trending down because the heading, badge and schema still said 2025. Updated everything to 2026 for freshness.
- ✓ **Corrected stale "Updated" dates** on two guide pages (now "April 2026") so they no longer look outdated.
- ✓ **Strengthened the Nephrology / Kidney page.** It sits just below page 1 for "best nephrologist in Nagpur" and "kidney specialist in Nagpur". Added a dedicated section, a "Conditions We Treat" list, and 2 new FAQs to push it up.
- ✓ **Boosted internal links to Nephrology.** Added Nephrology to the footer of all 47 pages and a contextual link from the Critical Care page — strengthening the page's ranking signals sitewide.

3. Analysis & Strategy

- ✓ **Search Console review.** 222 clicks, 9,370 impressions, avg position 8.9 (28 days). Identified Ayushman/PMJAY and kidney pages as the fastest growth opportunities.
- ✓ **AI / GEO check.** Confirmed Hope Hospital is now cited by ChatGPT for Nagpur hospitals — the site's structured data and llms.txt are working.
- ✓ **Prepared a doctor-profile expansion plan** — the biggest remaining opportunity for "Best [specialty] doctor in Nagpur" searches (awaiting the doctor list).

Changes published today (8)

Ref	Change
ef6891e	Fixed review-card QR (dead API → local image)
ab75a3e	Homepage review count 390+, review buttons via /review
b485f13	Updated review schema to 399 reviews
06c920d	Ayushman surgery-list title & meta optimization
d576621	Knee-replacement guide refreshed to 2026
f3daa0e	Corrected stale "Updated" date badges
bc63380	Nephrology page content optimization
cb98c22	Nephrology footer link sitewide + critical-care cross-link

Next Steps

- **Send the doctor list** (name, specialty, qualifications, experience, photo) → build "Best [specialty] in Nagpur" profile pages — biggest ranking + AI-citation win.
- **Confirm which specialties to add** (e.g. Urology, Pulmonology) so real department pages can be created.
- **Grow Google reviews** — reply to existing reviews, place the QR at more counters, share the review link on WhatsApp after discharge.
- **Re-check Search Console in ~2 weeks** to measure the impact of today's SEO changes.
