SEO AUDIT ISSUES

1 · STRATEGY — WHY DOCTORS MATTER

Finding	Detail
Competitor research	"best hospital in nagpur" #1 = Max (national chain, ~42 doctors); #2 CARE (4.4★/2,747). Their edge = authority + reviews + a deep, credentialed medical team.
Our biggest on-site gap	Hope had only 1 doctor profile (Dr. Murali). Specialty pages were "reviewed by" a generic team — weak E-E-A-T for a YMYL/medical site.
Plan	Build real, credentialed doctor profiles + a team directory + per-specialty named reviewers. (2026 healthcare-SEO: named physician authors are a ranking factor.)

2 · NEW DOCTOR PROFILES (REAL DATA)

Doctor	Specialty & Credentials	Status
Dr. Nikhil K. Khobragade	Gastroenterologist, Hepatologist & Therapeutic Endoscopist — MBBS, MD, DM (Gastro), 30+ yrs	Built
Dr. Dheeraj Gupta	Orthopaedic / Joint Replacement Surgeon — MBBS, MS (Ortho), Fellowship, 13+ yrs	Built

Each page: hero, stats, specialization cards, education, FAQ, CTA + [Physician](#) , [FAQPage](#) & [BreadcrumbList](#) schema. **No invented ratings/counts**; official NAP only. Real photos sourced from theayushmanhospital.com (your approval) and hosted locally on hopehospital.com.

3 • OUR DOCTORS DIRECTORY + HOMEPAGE

Task	Detail	Status
/doctors page (new)	Card-grid directory of all 3 doctors with <code>ItemList</code> schema	Built
Homepage "Meet Our Doctors"	New section above patient reviews — 3 doctor cards linking to profiles + "View All Doctors"	Pushed
Sitemap	Added <code>/doctors</code> + both profile URLs (3 total)	Done

4 • E-E-A-T — NAMED SPECIALTY REVIEWER

Page	Change	Status
departments/gastroenterology	Reviewer: generic "Gastroenterology Team" → named Dr. Nikhil Khobragade (schema <code>reviewedBy</code> + visible linked byline)	Fixed
services/gastroenterology-nagpur	Same — schema <code>reviewedBy</code> now a named Physician with profile link	Fixed

Named, credentialed reviewers strengthen medical-page trust signals far more than a generic "team".

5 • GIT COMMIT (PUSHED TO LIVE SITE)

Hash	Change
<code>ece2b0f</code>	doctors: add real specialist profiles + Our Doctors directory + homepage team section (10 files, +176 / -5)

Pushed to `main` → auto-deploys to live site via Vercel. Audit clean (0 fix-now / 0 review) throughout.

6 · PENDING / NEXT STEPS

Action	Owner	Status
Doctor sign-off on the 2 bios + experience figures before treating as final	Hospital / Doctors	Awaiting
Higher-res headshot for Dr. Khobragade (current 150×150) — 1-line swap	Marketing	Optional
Provide doctors for Cardiology, Nephrology, Neurosurgery, Oncology, Mother & Child — to build profiles + fix those pages' reviewer	Hospital	Pending
GSC URL Inspection → Request Indexing for /doctors + 2 profiles	SEO	Pending
Keep reviews drive running (3.9★ → 4.3★) — the decisive lever for "best hospital in nagpur"	Front desk / Marketing	In progress
