1 • STRATEGY — FOCUS OF THE DAY

Area	Detail
Top priority cluster	Ayushman Bharat / PMJAY — strengthened on the homepage (scheme table) and across the site (internal links to the Ayushman-hospitals guide).
E-E-A-T (medical authority)	Made all 3 named homepage doctors machine-readable; linked named surgeons to their profiles from specialty pages.
GEO audit	Homepage assessed for AI-search citation readiness — scored 8/10 (already schema-rich; gaps: data table + bed-count consistency).

2 • HOMEPAGE GEO ENHANCEMENTS

Change	Detail	Status
Ayushman scheme table	New "Treatment → free under which government schemes" table (6 rows: ortho, cardiac, cancer, kidney, neuro, maternity) — a structured block AI engines extract. All facts already on-page; no new claims.	Live
Physician schema (×2)	Added Physician schema for Dr. Nikhil Khobragade (Gastro) & Dr. Dheeraj Gupta (Ortho) — matching the 2 doctors already shown but previously without structured data. No per-doctor rating.	Live
Schema validation	All 10 JSON-LD blocks on the homepage parse cleanly (3 doctors now machine-readable: Murali, Khobragade, Gupta).	Verified

3 • INTERNAL-LINK BUILDOUT

Page edited	Link added	Status
departments/orthopedics	Linked "Dr. B.K. Murali" → his profile (was named 21× but never linked) + added Dr. Dheeraj Gupta link	Live
